Invasive Plant Control Cost Share Program Information for 2019 RDKB Electoral Areas D&E

The RDKB is offering a Cost share program within Electoral Area D and E to control some invasive plants on private land including hoary alyssum, spotted knapweed, sulphur cinquefoil, diffuse knapweed and nodding thistle (along border only). The RDKB also operates a new invader program for priority species as identified on the species list at the end of this form, please review this list to determine which program your request will fall under.

For requests for the 50% cost share program the landowner must:

Step 1. *Submit a signed Request Form to the RDKB estimating area to be treated.*

Step 2. *Contact a certified approved contractor for a quote on the cost to complete the work.*

Step 3. *Arrange for the certified contractor to complete the work and then submit a copy of the invoice to the RDKB for reimbursement.*

Requests will be approved until the budget available for the program is used up.

The maximum area eligible for treatment under this program is 5 acres per parcel. It is up to the landowner to fill out the form requesting treatment and to pay the entire cost for treatment before submitting a claim to the RDKB for 50% of the cost up to a maximum of \$500.00 for the RDKB portion.

In general, requests will be considered in the order that they have been received. Any requests received after the maximum budget for the program is reached, will be deferred until the following year. The program does not do in-crop or pre-plant treatment for landowners.

List of Contractors Approved to do work under the Cost Share Program for 2019.

Electoral Areas C and D:

Kootenay Weed Control
Castlegar, BC
Contact: Allan Freeborn
Phone: 250-365-7778

Electoral Area E only:

Southern Frontier Forestry Services
Rock Creek, BC
Ted Rexin
Phone: 250-446-2117

Other contractors may also do the work as long as they possess the appropriate certification, service license, and insurance.
